PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience in React.js, Spring Boot microservices, and AI-integrated applications. Proven ability to build and deploy scalable backends, responsive frontends, and RESTful APIs. Strong foundation in Java, JavaScript, and cloud-native architecture. Graduating B.Tech (CSE – Full Stack Development) from The NorthCap University in 2026 with a CGPA of 8.16.

TECHNICAL SKILLS

Languages: Java, JavaScript, Dart, C, SQL, HTML, CSS

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Flutter

Backend: Spring Boot, Spring MVC, REST APIs, Microservices, API Gateway, Eureka, Config Server

Databases: MySQL, MongoDB, Firebase, JDBC, PostgreSQL

Tools & Platforms: Git, GitHub, Postman, JUnit,

Concepts: Data Structures & Algorithms, Computer Networks, Operating Systems, OOP, SDLC

PROFESSIONAL EXPERIENCE

Software Developer Intern | Assignova (Remote)

Jun 2025 – Jul 2025

- Developed 6+ front-end applications using React.js, Tailwind CSS, and Bootstrap, including a hotel booking UI and a news aggregator consuming live REST APIs.
- Engineered a resort website landing page in React + Tailwind CSS achieving fully responsive layouts across mobile, tablet, and desktop breakpoints.
- Collaborated within an Agile team, adhering to industry coding standards, conducting code reviews, and delivering features on schedule.
- Strengthened production-grade expertise in component-based architecture, state management, and responsive UI/UX design.

PROJECTS

Online Shop – Spring Boot Microservices | Java, Spring Boot, MySQL, Postman Sep 2025 – Nov 2025

- Architected a scalable e-commerce backend using Spring Boot microservices, implementing separate Product, Order, and Authentication services with API Gateway, Config Server, and Eureka service discovery.
- Developed and tested 15+ RESTful API endpoints with JDBC + MySQL integration, custom pagination, and gateway-level authentication filters, reducing unauthorized access vectors.
- Validated all API contracts via Postman, ensuring 100% endpoint coverage before integration.

AI Mock Interview Platform | Next.js, Tailwind CSS, AI/Voice APIs, Firebase

Aug 2025 – Dec 2025

- Built a full-stack AI-powered mock interview application featuring real-time voice interaction, AI-generated domain-specific questions, and automated performance feedback.
- Implemented secure authentication, persistent interview history dashboards, and conversational AI voice APIs using Next.js and Tailwind CSS.
- Conducted end-to-end application workflow testing to validate performance, reliability, and edge-case handling.

Inventory Management System | Java, Spring Boot, MySQL, JUnit

Mar 2024 – Apr 2024

- Developed a backend inventory system with Spring Boot implementing full CRUD operations via custom RESTful APIs.

- Integrated JDBC for MySQL database connectivity and wrote JUnit test cases to validate business logic and ensure system reliability.

EDUCATION

B.Tech, Computer Science & Engineering (Full Stack Development) 2022 – 2026

The NorthCap University, Gurugram | CGPA: 8.16

Class XII (CBSE) 2022

General Raj's School | 80.6%

Class X (CBSE) 2020

General Raj's School | 83.6%

CERTIFICATIONS

-
- Introduction to Cybersecurity: Stay Safe Online — OpenLearn
 - Introduction to MongoDB — MongoDB University
 - Java Fundamentals — Oracle

LEADERSHIP & VOLUNTEER EXPERIENCE

Event Coordinator | College Tech & Cultural Events

- Coordinated planning, logistics, and on-the-day execution for multiple college-wide events, managing cross-functional teams and ensuring smooth delivery.

Member | Enactus NorthCap University | *Aug 2023 – Apr 2025*

- Contributed to social entrepreneurship projects aimed at sustainable community impact, assisted in event organisation and outreach programs empowering underprivileged groups.
- Participated in IEEE International Conference on Intelligent Systems for Cybersecurity (ISCS 2024) at The NorthCap University.
