Full Stack Developer — Java | Spring Boot | Microservices | React.js

PROFESSIONAL SUMMARY

Full-stack developer specializing in Java, Spring Boot microservices, and React.js/Next.js applications, with hands-on experience in gRPC, Apache Kafka, Docker, PostgreSQL, MySQL, and JWT-secured REST APIs. Builds and deploys scalable, cloud-ready backends and responsive frontends on a strong foundation of OOP and Data Structures & Algorithms. B.Tech (CSE – Full Stack Development), The NorthCap University, 2026, CGPA 8.16/10.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL, C, HTML, CSS
Backend: Spring Boot, Spring MVC, REST APIs, Microservices, gRPC, Kafka, API Gateway, Eureka, Config Server, Node.js, JWT
Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Flutter
Databases: PostgreSQL, MySQL, MongoDB, Firebase, JDBC
Tools & Platforms: Git, GitHub, Docker, AWS, Postman, JUnit, SDLC, Agile
Concepts: Data Structures & Algorithms, OOP, Computer Networks, Operating Systems, Software Engineering

PROFESSIONAL EXPERIENCE

Software Developer Intern — Assignova

Jun 2025 – Jul 2025

Remote

- Developed 6+ front-end applications using React.js, Tailwind CSS, and Bootstrap, including a hotel booking UI and a news aggregator consuming live REST APIs.
- Engineered a resort website landing page in React + Tailwind CSS achieving fully responsive layouts across mobile, tablet, and desktop breakpoints.
- Collaborated within an Agile team, adhering to industry coding standards, conducting code reviews, and delivering features on schedule.
- Strengthened production-grade expertise in component-based architecture, state management, and responsive UI/UX design.

PROJECTS

Patient Management System — Backend Microservices

Jun 2026 – Jul 2026

Java, Spring Boot, gRPC, Kafka, PostgreSQL, Docker, JWT

- Architected a scalable microservices backend with Patient, Billing, Analytics, Auth, and API Gateway services for independent deployment.
- Implemented gRPC with Protobuf for low-latency inter-service communication and Apache Kafka for real-time analytics event streaming.
- Secured APIs using JWT authentication with a dedicated Auth Service integrated through Spring Cloud Gateway.
- Containerized services using Docker with internal networking for service-to-service communication; wrote integration tests for authentication and REST APIs.

Online Shop — Spring Boot Microservices

Sep 2025 – Nov 2025

Java, Spring Boot, MySQL, Postman

- Architected a scalable e-commerce backend with separate Product, Order, and Authentication services using API Gateway, Config Server, and Eureka service discovery.
- Developed and tested 15+ RESTful API endpoints with JDBC + MySQL integration, custom pagination, and gateway-level authentication filters, reducing unauthorized access vectors.
- Validated all API contracts via Postman, ensuring 100% endpoint coverage before integration.

AI Mock Interview Platform — Full Stack

Aug 2025 – Dec 2025

Next.js, Tailwind CSS, AI/Voice APIs, Firebase

- Built a full-stack AI-powered mock interview application featuring real-time voice interaction, AI-generated domain-specific questions, and automated performance feedback.
- Implemented secure authentication and persistent interview history dashboards using Next.js and Tailwind CSS with conversational AI voice APIs.
- Conducted end-to-end workflow testing to validate performance, reliability, and edge-case handling.

Inventory Management System — Backend

Mar 2024 – Apr 2024

Java, Spring Boot, MySQL, JUnit

- Developed a backend inventory system with Spring Boot and JDBC/MySQL implementing full CRUD operations via custom RESTful APIs, with JUnit test coverage for business logic.

EDUCATION

B.Tech, Computer Science & Engineering (Full Stack Development)

2022 – 2026

The NorthCap University, Gurugram — CGPA: 8.16 / 10

Class XII (CBSE) — General Raj's School — 80.6%

2022

Class X (CBSE) — General Raj's School — 83.6%

2020

CERTIFICATIONS & LANGUAGES

Certifications: Cybersecurity: Stay Safe Online (OpenLearn) • Intro to MongoDB (MongoDB University) • Java Fundamentals (Oracle)

Languages: English (Professional) • Hindi (Native)
